No Legend on map – loose available at registration.

Control Descriptions

Loose descriptions should be collected from Registration.

They are also on the front of all maps.

Introductory Course has text symbols.

Long, Short and Medium have IOF symbols

Safety

- The area is bounded to the South by the M180 and to the North by the A18. Both these roads contain fast moving traffic and are out of bounds. None of the courses require competitors to go on public roads.
- Most courses will cross the Forest Road, there may be competitor traffic on this road, cross with care.
- There are two semi-permanent camp fire sites within the area which are not mapped, take care when in these areas.
- Be aware that there are some metal stakes, approx 50cm high used as permanent orienteering controls, that can be found in unexpected locations.
- The water features are predominantly dry
- There are deer in the woods, so be ready to "jump" if you inadvertently disturb them.
- Safety Bearing - In event of being lost head due North to A18 NOT South to M180

Download/Finish

All competitors must report to download whether they finish their run or not.

There will be free soup available in Registration.
