

## Risk Assessment for Orienteering

Risk assessments are concerned with identifying the hazards (i.e. things which might go wrong or cause an accident/injury), evaluating the likelihood of a particular event occurring (i.e. level of risk) and putting measures in place needed to reduce or eliminate the risk.

**The Risk Assessment (Humber Bridge Country Park Saturday October 21<sup>st</sup> 2017 1pm to 4pm.)**

**It is essential that the mitigation column is completed in detail so that the control measures and who is responsible is fully understood in advance of the activity / session / event and that all staff / helpers are fully briefed.**

**NB: it is not sufficient only to put warnings in preliminary information as there is no way of being sure that all participants will have read them.**
