More people than I expected managed to get all twelve controls in the same order as the last verse of the song. Eight altogether including an impressive six within the time limit. Bella and Mary both managed the feat with less than one minute remaining, good timing girls! Another seven visited all twelve controls but not in the correct order. Sympathies to Paul and John who went round in the wrong order! Special mention to Megan who wasn't going to be dictated to by time limits - she persevered and successfully managed to get all twelve controls.
